Subject: GAF's July 13, 1993 Response to EPA's Information Request

I received a voice mail from Peter Strassner (the attorney for GAF who submitted GAF's July 13, 1996, response to EPA's April 20, 1993 information request) last night at 6:00. In that voice mail Mr. Strassner told me that the confidentiality legend which appears on the facsimile coversheet attached to GAF's response was his law firm's standard legend, and that it was not his, nor was it GAF's, intention to assert a confidentiality claim as to the response transmitted with that coversheet. Accordingly, no CBI claim has been asserted as to that response.
